MYSTERIOUS CONTAINER FOUND ON DOORSTEP!!!

Ima Fiber

In the early hours of the morning a man was seen lurking around doorsteps depositing glass containers with a white liquid inside. Our reporter noted that there was no real pattern to these activities and some doorsteps had more than one, while others were missed out completely. During further investigations it was discovered that this was happening quite a lot in Chorlton and many roads were affected. A spokesperson from Creamline Dairies said "This is thanks to David Attenborough and his Blue Planet documentary, the demand is so great we've seen an 80% increase in glass bottled milk over the last year." It appears that this white liquid is available from supermarkets but only in plastic containers. To order milk in reusable glass bottles from Creamline Dairies head to www.creamline.co.uk

A NOD TO BILLY'S WEEKLY LIAR!!!

With a view to increasing awareness of Chorlton Voice, Chorlton Arts and other occasional topics, we will, from time to time, be distributing this A4 newspaper, which you will have no doubt seen in The Library and various outlets throughout Chorlton. It will be sponsored by a member of the Chorlton community or trader and, for the privilege of sponsoring the "rag", they will have prominent position on the front page in a featured article by our esteemed journalist Ima Fiber. As you can see, this is a tongue in cheek publication which is based on a broadsheet from the 1960's called Billy's Weekly Liar. As Mark Twain said, "never let the truth get in the way of a good story". For an online version of this newspaper go to www.chorltonvoice.org/weaklie-news This edition is sponsored by Creamline Dairies and if you are a business in Chorlton or even an individual who would like to increase your exposure, do get in touch to discuss costs.
